

BSC 2010 – Integrated Principles of Biology I

Syllabus for Section 16CA

Fall 2017

I. Class Meetings

Tuesday, Wednesday & Thursday
Period 9 4:05 PM– 4:55 PM CSE E221

Online Exercises and Tutorials are continuously available; particular assignments will be posted regularly.

II. BSC Laboratory Courses

The BSC laboratory courses (BSC 2010L and BSC 2011L) are managed separately from the BSC lecture courses. Please read the information available at the BSC Website (<http://www.bsc.ufl.edu>) for more information on the laboratory courses.

III. Instructors

Dr. Mi-Jeong Yoo, PhD
Department of Biology
Office: Room 435 CGRC
Office Hours: After class or by appointment
E-mail: ymj@ufl.edu

IV. Course Goals and Objectives

The primary goal of this course is to establish a coherent foundation of knowledge in biology and to prepare students for comprehension in advanced biology courses and science in general. Fundamental concepts discussed include the scientific methods by which we come to know things in science, the chemical composition and processes that make up all life, genetic processes and the means of inheritance of traits, the mechanisms and processes of natural selection, and adaptation and evolution of life on Earth. An additional course goal is to develop critical thinking skills for development of reasoned thought and for evaluation of life experiences.

Objectives of the course will be achieved if, by its conclusion, students can:

- Describe a scientific hypothesis and identify testable predictions that logically follow
- Compare and contrast the components of prokaryotic and eukaryotic cells and the molecular processes driving cellular structure and functions
- Outline the process and molecular components of key metabolic pathways
- Describe the relationship between genotype and phenotype
- Predict the RNA and protein sequences that will be transcribed and translated from a given gene
- Predict the immediate and long term effects of specific gene mutations
- Discuss the evidence that all living things are descended from a common ancestor and have changed and diversified into species through time.
- Describe the primary driving forces of evolutionary change

- Identify sources of genetic variation in populations and explain how this can be shaped in the presence of natural selection and other evolutionary forces
- Interpret and evaluate phylogenetic trees and use them to distinguish evolutionary predictions
- Outline major fundamental events in the history of life on Earth, including changes to bio-geo-chemical cycles connected with major evolutionary transitions.

V. General Education Objectives for Biological Sciences

Biological science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the life sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern biological systems. Students will formulate empirically testable hypotheses derived from the study of living things, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments.

The General Education objectives and the associated Student Learning Outcomes for Biological Sciences are achieved through lectures, in class discussion, interactive “clicker” response systems, and online activities and exercises. The learning objectives and SLOs are further reinforced by inquiry-based and active-learning exercises in the companion laboratory course, BSC 2010L. In particular, the companion lab expands upon development and testing of specific hypotheses.

VI. General Education Student Learning Outcomes

The general education student learning outcomes (SLOs) describe the knowledge, skills and attitudes that students are expected to acquire while completing a general education course at the University of Florida. The SLOs fall into three categories: **content**, **communication** and **critical thinking**.

Every general education course must address all three SLOs. Note that the subject area objectives (detailed above) describe the context within which the SLOs are achieved

Category	Institutional Definition	Institutional SLO
CONTENT	Content is knowledge of the concepts, principles, terminology and methodologies used within the discipline.	Students demonstrate competence in the terminology, concepts, methodologies and theories used within the discipline.
COMMUNICATION	Communication is the development and expression of ideas in written and oral forms.	Students communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the discipline.
CRITICAL THINKING	Critical thinking is characterized by the comprehensive analysis of issues, ideas, and evidence before accepting or formulating an opinion or conclusion.	Students analyze information carefully and logically from multiple perspectives, using discipline specific methods, and develop reasoned solutions to problems.

To assess student performance in meeting these student learning outcomes for this course, students are evaluated by a variety of instruments throughout the course: three exams during the semester, daily graded "clicker" questions used to encourage comprehension and reasoning, and graded on-line activities, exercises and assessments. Student Learning Outcomes are further assessed in BSC 2010L, the companion lab course. For example, the Communication SLO is assessed in graded written assessments and in oral presentations in the lab. In combination, BSC 2010 and BSC 2010L provide assessments of all categories of the General Education Student Learning Outcomes.

VII. Expectations

Each student is solely responsible for reading and following the instructions, guidelines and schedules in this syllabus and on the course webpage, or announced in class. Not having read the information in this syllabus or in instructor announcements will not constitute an excuse for missing an assignment, exam, or other assessment. Please set your preferences in Canvas so that you receive timely notifications of course announcements and other information.

VIII. E-mail Communication

All e-mail correspondence to course instructors must **originate from the Inbox function of Canvas, and include your section number.** E-mails not meeting these requirements may not be recognized by our e-mail filters, and thus may not be answered. It is easier to check all student emails if they are in one place.

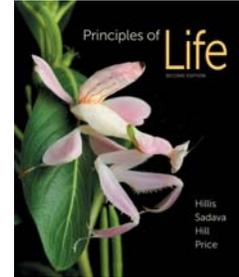

All correspondence regarding the online assignments (*LaunchPad* and *Learning Catalytics*) must be sent to the Instructor through **Canvas email.**

IX. Course Resources

A. Textbook

Principles of Life, 2nd Edition, by Hillis, Sadava, Heller, & Price, Sinauer Associates and W.H. Freeman (publisher)

There are current versions of the textbook on reserve at the Marston Science Library. Visit the Reserve Materials area to check out these copies.

B. Online Resources and Electronic Textbook

Launchpad is an online assignments and tutorial system from the textbook publisher. It is required for this course and includes an e-book with purchase. Each new copy of the *Principles of Life* textbook comes automatically packaged with *Launchpad* and an e-book. If you purchase a used textbook you will still need to purchase access to *Launchpad*. Most students find that purchasing *Launchpad* as a standalone with the included e-book is the most economical option.

Now we link the student *LaunchPad* accounts with the Canvas course, so that students access the *LaunchPad* materials directly through Canvas. So, it is your responsibility to link your *LaunchPad* account with the Canvas course.

Follow these steps to get started.

- Go to <http://elearning.ufl.edu/> and log in.
- Find the course website.
In the left sidebar, click on the area of [Macmillan Learning](#).
- You will see the “Privacy Notice and Terms of Use (“Legal Terms”)” if this is the first time you have accessed a LaunchPad assignment through Canvas.
- Review the “Privacy Notice and Terms of Use (“Legal Terms”)” and select [“I have read the Legal Terms.”](#)
- Click [“I agree to the Legal Terms.”](#) Before proceeding, determine whether you already have a Macmillan account.
 - If you do not have a Macmillan account, you should create an account first with your **Gatorlink email address**. Then, you can choose your access option.
 - If you have a Macmillan account, you should link your Macmillan account.
 - Once you complete *LaunchPad* assignment, you should be able to see your grade on Canvas. If not, you should check out whether you linked the account properly.

For help with *LaunchPad*, contact *LaunchPad* Technical Support: 1-800-936-6899 (phone) or their online support form at <http://www.macmillanlearning.com/Catalog/techsupport>.

Tech Support Hours (all times EST)

Monday – Thursday, 8:00 AM – 3:00 AM

Friday, 8:00 AM – 12:00 AM

Saturday, 12:00 PM – 8:00 PM

Sunday, 12:00 PM – 3:00 AM

C. Syllabus Text for Student Purchase of Course Materials

IMPORTANT INFO! Please note that this course will be participating in the **UF All Access** program for the Fall 2017 semester. Students will have two options to gain access to *LaunchPad* for Principles of Life (which also includes the eBook text with study tools) when classes begin in August: Students will have the choice to “opt-in” for a limited time to receive access to *LaunchPad* for a reduced price and pay for these materials through their student account. Students who do not choose this option will be able to purchase a standalone code through the UF Bookstore. Both options provide access to the same materials. The following link will take you to where you can “opt-in” to receive discounted course materials once logged in with your Gatorlink credentials.

<https://www.bsd.ufl.edu/G1CO/IPay1f/start.aspx?TASK=INCLUDED>

	Author	Title	ISBN/EAN	Edition	New	Used
UF All Access	Hillis	Prin of Life (24m) UF All Access	9781319147136	2 nd	\$97.50	N/A
Loose Leaf Text	Hillis	Prin of Life (Print Upgrade)	9781319147129	2 nd	\$37.50	N/A
Access Code	Hillis	Prin of Life (24m Launchpad Access)	9781464184734	2 nd	\$124.50	N/A
Study Guide	Hillis	Study Guide for Prin of Life	9781464184758	2 nd	\$48.25	\$36.25

D. Classroom Response System (Clicker)

We will use the Learning Catalytics (LC) Classroom Response System (CRS) for quiz questions during class. LC allows students to use any modern **web-enabled device**, including laptops, smartphones (iPhone, Android, Blackberry, etc.), and tablets (iPad, Kindle Fire, etc.) to participate in class. Dr. Yoo will provide instructions on how to register for LC during the first week of class. For students that enroll in this class late, follow the instructions in the “LearningCatalytics_Instruction” PowerPoint presentation found in the Files section on the course’s Canvas website. For additional information on LC, visit http://help.pearsoncmg.com/learning_catalytics/student/en/Topics/lc_looking_for_help.htm. If you have problems with LC, visit <https://www.pearsonhighered.com/support/for-students.html>.

E. Course Website (e-Learning)

Class material including the syllabus, exam results, some lecture slides, and other information related to the course will be posted on the course e-Learning website (<http://elearning.ufl.edu/>). The course is found under “e-Learning in Canvas”. You are responsible for **all** announcements made in lecture and/or posted on the course website for this class. For help with e-Learning, call the UF Computing Help Desk at 352-392-4357, or visit the e-Learning support website: <http://helpdesk.ufl.edu/>.

X. Online Instruction Information

As part of BSC 2010, you are required to complete online assignments that will account for 12% of your overall grade. Online assignments will be completed online at the *LaunchPad* website.

See instructions above (B. Online Resources and Electronic Textbook) on how to access the *LaunchPad* website. A schedule will be posted on e-Learning with the due dates for each assignment. **All assignments must be completed by the stated due date and time for credit. Extensions will NOT be given because of technical or personal issues that occur within 24 hours of the assignment deadline.** Most assignments will also have a set time limit, so make sure you have time to devote to that assignment before you begin. You are expected to work by yourself on the assignments and cheating will not be tolerated.

Note that all due dates for assignments are clearly posted on the *LaunchPad* Assignments tab and reflect the most up-to-date information. On this page you can also see your grade on an assignment and its status (e.g., complete, or due in x days). Also, there are many other resources available on *LaunchPad* to help you study material from your textbook, such as Diagnostic quizzes, Flashcards, Interactive chapter summaries, etc. Items that are NOT on the assignments page will not be graded, but we still strongly encourage you to use them to help you study.

If you have technical difficulties, please contact *LaunchPad* Technical Support: 1-800-936-6899 (phone) or their online support form at <https://community.macmillan.com/community/digital-product-support/college-students-support-community>

If there is a technical problem with accessing *LaunchPad* or a particular assignment within *LaunchPad*, you must contact *LaunchPad* technical support FIRST. *LaunchPad* tech support is the only one who can fix technical issues with the site. Then, contact the Online Instructor at least 48 hours prior to the deadline, so appropriate steps can be taken to fix the issue and appropriate extensions can be given if necessary.

Grading of Online Exercises:

The online exercises account for nearly 12% of the total course points. There are several different types of assignments that students will have to complete. For any quizzes, you will be graded based on the number of questions answered correctly out of the total number of questions on your FIRST quiz submission! For all other assignment types (activities, tutorials, etc.) you will receive full credit upon completion. There are no make-ups available for *LaunchPad* assignments. Once assigned, assignments are available online at all times up until the deadlines. ALL *LaunchPad* assignments for a section of the class (i.e., all the lectures given by a particular instructor) are due at 5:00 pm the DAY BEFORE the exam covering that section (for example, if the exam is on the 4th, *LaunchPad* assignments are due by 5:00 pm on the 3rd). Because they are assigned far in advance of the due date, *LaunchPad* assignments that are not completed by the due date CANNOT BE MADE UP, with one exception: If there is a technical problem with accessing *LaunchPad* or a particular assignment within *LaunchPad*, you must contact *LaunchPad* technical support AND the online instructor at least 48 hours prior to the deadline, so appropriate steps can be taken to fix the issue and appropriate extensions can be given if necessary. Thus, check early that you can access the assignments. You will not be granted an extension for technical problems, if you do not contact the online instructor at least 48 hours before the deadline.

Important information about pace:

We are giving you all of the assignments for each third of the course at once, and giving you at least three weeks to complete them. You have the freedom to go at a pace of your choosing, but you

should not leave yourself too much work at the deadline. The assignments have been listed in an order that complements the lecture. You may go over the material for a given chapter before the lecture to better understand the lecture, or just after each lecture to help reinforce the material and prepare for the exam.

The only thing we do not recommend is to leave all the assignments until right before the deadline! You can always go back and re-do the assignments after you have submitted them for a grade, as a study aid.

To reiterate, deadlines are at 5:00 pm on specified dates, which will be the day before each exam.

LaunchPad grades will be transferred to the UF E-learning website after each exam, but will also be viewable at any time on the LaunchPad website.

XI. Supplemental Instruction

In Supplemental Instruction (SI), a trained student peer attends the class and then leads group sessions to focus on the challenging concepts and problems in the course. **SI is purely voluntary**; you can attend as often as you like, provided there is space (this is a first-come, first-served program). The sessions are collaborative, in that you will be working with classmates to better understand the material. The SI leaders will show you effective strategies for studying the course material, which you will have a chance to practice together, and the SI leaders will give you a chance to ask questions or pose your own concerns.

Refer to the SI e-Learning site for the locations and schedules of the SI sessions. More information is available at the UF Supplemental Instruction Home Page:

https://teachingcenter.ufl.edu/supplemental_instruction.html.

XII. Assessments and Grading

A. Exams

There will be three "midterm" exams, but no cumulative "final" exam. The midterm exams will be administered during the normal semester and during the normal class meeting times. Each exam will cover material from lecture, the online discussions, and the assigned reading in the textbook. The exams will **not** be cumulative. Each exam will be worth approximately 28% of the course grade.

All exams will be multiple-choice and machine graded. Answer sheets will be provided and must be filled in using a #2 or softer pencil. **Each student must take the exam during her/his registered section time. Each student must bring her/his Gator ID to class on exam days.** No student will be allowed to start an exam after the first student to complete an exam leaves the classroom. All exams and answer sheets will be collected at the end of the exam period. No additional time will be given to complete an exam if you arrive late. Please be aware that filling in the scantron sheets is part of the exam; no extra time at the end of the class period will be given for filling out the scantron sheets.

Each exam MAY be curved using the following approach: The top 3% of the scores in the class will be averaged, and the difference from 100 points will be added to each individual exam score.

Exams will be available for review by appointment for one week after the exam date; specific times for exam review will be announced following each exam. Exams will **not** be available for review after the semester has ended.

Make-up Exams: No make-up exams will be given without prior permission or documentation of illness. Students that will be missing an exam due to a pre-arranged university-approved excused absence (sports, etc.) should let the instructor know **a minimum of two weeks in advance**. These students may be required to take the make-up exam *before* the scheduled in-class exam.

In case of illness on exam day, a letter from the student's primary care provider will be required in order to receive an accommodation email from the Dean of Students Office (P202 Peabody Hall). This letter must state that the student was unable to complete the exam on the scheduled date (i.e., a letter stating only that the student was seen in a clinic is not sufficient). A personal emergency that forces a student to miss an exam also requires a note from the Dean of Students. These notes must be received within five business days after the exam. Make up exams may be short-answer or essay format.

B. Online Assignments

Students will receive up to 12% of the total course points for participation in the online exercises, and for performance on online assessments.

There are **NO** make-ups available for *LaunchPad* assignments. Once assigned, assignments are available online continuously until the deadlines. Because a full week (or more) is dedicated to the completion of each *LaunchPad* assignment, documentation of illness or a personal matter must be provided for at least five of the seven days of the week of the assignment's deadline for accommodations to be made. It is especially important to not wait until just before the deadlines to complete *LaunchPad* assignments.

C. In-Class Quiz "Clicker" Questions

Students will receive 5% of the total course points for participation in the in-class quizzes that are to be answered using the classroom response system (Learning Catalytics, see above). Specifically, 18 course points will be awarded for Learning Catalytics (LC) quizzes; 6 points from each lecture unit of the course. The points earned will reflect the proportion of LC questions answered correctly in class. Each question posed will be scored as 0.75 LC points for a correct answer with an additional 0.25 LC points for participation. For each course lecture unit, full in-class quiz credit (6 course points) will be awarded to all students achieving 75% of the total possible LC points from that unit; those achieving less than 75% will receive course points in proportion to their achieved LC points (e.g. 50% of LC points earned = 3 course points for one lecture unit).

Students may not make up LC questions, regardless of the reason (e.g., absence, malfunctioning cell phone, forgot to register, etc.). It is the student's responsibility to regularly check (i.e., daily or weekly) their gradebook in LC to ensure that their submissions were correctly received, and to contact LC support to resolve any issues with submissions not being properly recorded in the LC gradebook in a timely manner.

D. Extra Credit

No mechanisms for extra credit are available.

E. Grading

Assessment	Points per Unit	Total Point	% of Total Points
Exams	100	300	83.3
<i>LaunchPad</i>	14	42	11.7
Learning Catalytics	6	18	5.0
TOTAL	120	360	100.0

All grades will be posted on e-Learning (in terms of course points, i.e., the point scheme above), and it is the responsibility of the student to check their grades on e-Learning and make sure they match their grades on *LaunchPad* and Learning Catalytics. If there is a discrepancy you must let us know within ONE week of the grade being posted on eLearning.

Minimum grade cutoffs are listed below. Because each exam is curved individually (see section IX-A, above), the scores for the course as a whole will not be curved (i.e. these grade cutoffs will not be lowered) except under extremely rare circumstances (i.e., unless we tell you otherwise these cutoffs will not be lowered). However, these cutoffs will not be raised; in other words, if you receive 90% of the possible points, you are guaranteed to earn an A grade. Final scores will NOT be rounded (i.e., 89.99% is not 90%).

Point Range (%)	Letter Grade
≥ 90.00	A
≥ 86.66	A–
≥ 83.33	B+
≥ 80.00	B
≥ 76.66	B–
≥ 73.33	C+
≥ 70	C
≥ 66.66	C–
≥ 63.33	D+
≥ 60	D
≥ 56.66	D–
< 56.66	E

Note that the current UF policy for assigning grade points is available at the following undergraduate catalog web page: <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>.

F. Special Treatment

Please do not request individual special treatment regarding grading at the end of the semester; **we do not adjust grades for individuals for any reason**. Plan to do well on all exams and other assessments from the beginning of the semester; if you are having difficulty in the class, please let your instructors know *before* the exams rather than after.

XIII. Academic Honesty

All students registered at the University of Florida have agreed to comply with the following statement:

"I understand that the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University."

In addition, on all work submitted for credit the following pledge is either required or implied:

"On my honor I have neither given nor received unauthorized aid in doing this assignment."

If you witness any instances of academic dishonesty in this class, please notify the instructor or contact the Student Honor Court (392-1631) or Cheating Hotline (392-6999). For additional information on Academic Honesty, please refer to the University of Florida Academic Honesty Guidelines at: <https://catalog.ufl.edu/ugrad/current/advising/info/student-honor-code.aspx#honesty>.

XIV. Attendance

Attendance is not required, but students are expected to attend all classes and are responsible for all material covered during the lecture, including announcements. Students are strongly encouraged to read the assigned chapters before coming to class as this will make it easier to comprehend the lecture material. If you miss class, visit the e-Learning site for any lecture notes and course announcements.

While attendance is not mandatory, we will be using "Learning Catalytics" for attendance monitoring. At the beginning of lecture, we open a session and ask that each student select their attendance. We use attendance data to monitor the effectiveness of our teaching.

THERE ARE NO POINTS AWARDED FOR ATTENDANCE. THERE IS NO PENALTY FOR ABSENCES. THERE IS ALSO NO REASON TO SHARE THE ATTENDANCE CODE TO FRIENDS WHO ARE NOT ACTUALLY PRESENT.

XV. Time Commitment

The UF College of Liberal Arts and Sciences expects that each student will devote 3-4 hours per week per credit-hour to each course, including time in lectures and labs. Because BSC 2010 is 3 credits, each student should therefore expect to devote 9-12 hours per week to this course. A recommended time allocation is below.

Activity	Hours per Week
Lectures	3
Online Exercises	1-2
Textbook Readings	2-3
Review and Study	2-4

If you find yourself spending more than 12 hours per week on average on these activities, discuss this with your course instructor to see if you can refine your study habits. If you find yourself spending less than 9 hours per week on average, you should recognize that you may have difficulty learning and comprehending the material in this time, and this will probably be reflected in poor performance on the various assessments, causing you to receive a lower overall course grade.

XVI. Conduct in Class

Please be courteous and do not talk during lecture. This can be distracting to other students and the instructor.

Use of electronic devices in class to take notes or otherwise participate in classroom activities is approved. Approved electronic devices are laptop computers, cell phones, smart phones, tablets, and voice recording devices. Other uses of these devices or the use of unapproved devices will be considered disruptive. Unapproved electronic devices include video recorders, digital cameras and MP3 players. Students who use unapproved devices in class will be considered disruptive. Multiple disruptions will be considered grounds for the assignment of a failing grade.

XVII. Accommodations for Students with Disabilities

Students who will require a classroom accommodation for a disability must contact the Dean of Students Office of Disability Resources, in Peabody 202 (phone: 352-392-1261). Please see the University of Florida Disability Resources website for more information at: <http://www.dso.ufl.edu/drc/>. Note that the student should provide documentation of a requirement for accommodation as soon as possible in the semester, so that arrangements can be made with the DRC. No accommodations are available to students who lack this documentation. It is the policy of the University of Florida that the student, not the instructor, is responsible for arranging accommodations when needed. Once notification is complete, the Dean of Students Office of Disability Resources will work with the instructor to accommodate the student.

XVIII. Counseling Center

Many students experience test anxiety and other stress related problems. “[A Self Help Guide for Students](#)” as well as a diverse array of support systems are available through the UF Counseling and Wellness Center (3190 Radio Road, 392-1575, <http://www.counsel.ufl.edu/>).

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

XIX. Lecture Schedule

Lecture topics for this course are listed below. This is a tentative schedule; the dates and coverage of specific topics are subject to change.

Day/Date	Lecture #	Topic	Chapter
Unit 1: Cells Lectures			
Aug 22, Tue	1	Introduction	
Aug 23, Wed	2	Atoms and Molecules	2
Aug 24, Thr	3	Carbohydrates and Lipids	2
Aug 29, Tue	4	Nucleic Acids and Proteins	3
Aug 30, Wed	5	Proteins (cont.) and Enzymes	3
Aug 31, Thr	6	Enzymes (cont.)	3
Sep 5, Tue	7	Cells, Prokaryotic Cells, and Eukaryotic Cells	4
Sep 6, Wed	8	Eukaryotic Cells (cont.), Cytoskeleton, and Extracellular Structures	4
Sep 7, Thr	9	Cell Membranes	5
Sep 12, Tue	10	Cell Membranes (cont.) and Signaling	5
Sep 13, Wed	11	Metabolism	6
Sep 14, Thr	12	Cellular Respiration	6
Sep 19, Tue	13	Photosynthesis	6
Sep 20, Wed		Review	
Sep 21, Thr		EXAM 1 – In Class	
Unit 2: Genetics Lectures			
Sep 26, Tue	1	Cell Cycle, Mitosis	7
Sep 27, Wed	2	Meiosis	7
Sep 28, Thr	3	Mendelian Genetics	8
Oct 3, Tue	4	Extending Mendelian Genetics	8
Oct 4, Wed	5	Chromosomes and Linkage	8
Oct 5, Thr	6	Search for DNA	9
Oct 10, Tue	7	Replication	9
Oct 11, Wed	8	Transcription	10
Oct 12, Thr	9	Translation	10
Oct 17, Tue	10	Mutation	9
Oct 18, Wed	11	Gene Expression	11
Oct 19, Thr	12	Epigenetics & Genomics	11, 12
Oct 24, Tue	13	Biotechnology	13
Oct 25, Wed		Review	
Oct 26, Thr		EXAM 2 – In Class	

Unit 3: Evolution Lectures			
Oct 31, Tue	1	What is Evolution? A history of evolutionary thought	15
Nov 1, Wed	2	Natural Selection I: Fundamentals – Heritability	15
Nov 2, Thu	3	Natural Selection II: Modes of Selection	15
Nov 7, Tue	4	Microevolution I: Hardy-Weinberg Equilibrium	15
Nov 8, Wed	5	Microevolution II: Evolution of DNA sequences	15
Nov 9, Thr	6	Sex: why bother?	15
Nov 14, Tue	7	Macroevolution: Origin of Species	17
Nov 15, Wed	8	Macroevolution: Speciation and Extinction	17
Nov 16, Thr	9	Diagramming evolution: Phylogeny	16
Nov 21, Tue	10	How to make a phylogeny	16
Nov 22, Wed		NO CLASS – Thanksgiving	
Nov 23, Thr		NO CLASS – Thanksgiving	
Nov 28, Tue	11	Using phylogenies to ask evolutionary questions	16
Nov 29, Wed	12	The History of Life on Earth	18
Nov 30, Thr	13	Origins and Early Diversity of Life	19, 20
Dec 5, Tue		Review	
Dec 6, Wed		EXAM 3
