

BOT 6935/ZOO 6927: MOLECULAR SYSTEMATICS

FALL, 2016; 2 CREDITS

Lecture M, T 12:50 pm; 371 Dickinson

Doug Soltis, Pam Soltis, Ryan Folk

Week Topic

Aug. 22 Overview; chromosome evolution; Modern cytogenetics

Aug. 29 Structure, organization, and evolution of genomes

Sept. 5 Labor Day, no class; Genomes, cont.

Sept. 12 DNA sequencing

Sept. 19 DNA sequencing; Tour of ICBR core facility

Sept. 26 Sequence Alignment

Oct. 3 Overview of phylogenetic methods

Oct. 10 Phylogenetic methods, cont.

Oct. 17 Exam 1; Phylogenomics

Oct. 24 Phylogenomics

Oct. 31 Reticulation; Dated trees and divergence time estimation

Nov. 7 Population markers

Nov. 14 Population methods: e.g., clustering, AMOVA, networks, trees

Nov. 21 Integrating phylogenies and niche models, etc.

Nov. 28 Miscellaneous topics: e.g., supertrees; online data resources; other

Dec. 5 Presentations

Contact Information:

Doug: 273-1963; Dickinson 301; dsoltis@botany.ufl.edu
Pam: 273-1964; Dickinson 301; psoltis@flmnh.ufl.edu
Ryan: 273-1961; Dickinson 301; rfolk@flmnh.ufl.edu
